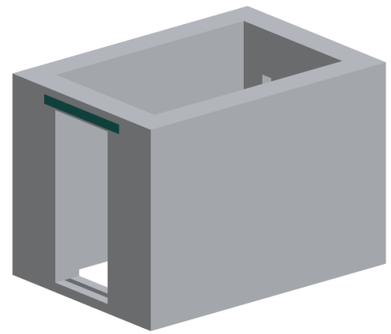
**RIGHT VIEW**

Scale 1:10; looking at the right side (along -X)



**WHERE IT GOES**

This part in colour, its neighbours in grey

**HOW TO MAKE IT AND HOW IT FITS**

Door lintels: two pieces 1,140 mm long, one over each leaf.
Pad lintels: two pieces 940 mm long, one over each leaf.
Section 115 wide (the leaf width) by 100 mm deep. Saw square, treat the cut ends again.
Each lintel bears 150 mm on the brick at both ends of the opening, bedded in mortar, level, flush with both leaf faces.
Door lintels: underside 1,920 mm above ground. Pad lintels: underside 1,520 mm.
Leave the cavity open between the two lintels of a pair; the fill above runs down between them onto the lining head.
Check: level, 150 mm bearing both ends, no rot or splits.
