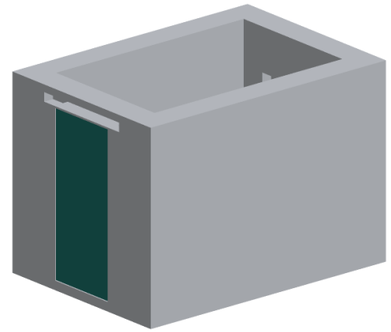
RIGHT VIEW

Scale 1:20; looking at the right side (along -X)



WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Leaf 794 wide x 1,792 high x 74 mm thick (0.8 x 1.8 m nominal).
Frame of 50 x 50 mm timber on edge: stiles, top, bottom and a middle rail. Fill between with 50 mm foam board.
Glue and screw a 12 mm plywood skin to each face.
Three 100 mm butt hinges on the right edge (seen from outside): 250, 900 and 1,550 mm above the floor. The door opens outward.
Inside: a latch that opens by pushing a lever, never a key.
Outside: a pull handle only. No outside lock or bolt.
Gaps: 3 mm each side, 3 mm at the head, 5 mm at the sill.
Check: closes on the seal all round; opens from inside by one push.
